

Some Fungi in Holme Wood.

*“ Overnight,
very whitely,
very quietly,
Our toes, our noses
take hold of the loam
acquire the air...
Nobody sees us,
stops us, betrays us.
The small grains
make room.
We shall by morning
inherit the earth.*

Sylvia Plath.

*“In Britain, 12000 species of Fungus are
known (not including Lichens).
120 new species are being found every year”.*
Wildlife Trust.
